

# KRINGLE CANDLE

*is America's hottest new candle line!*

Kringle Candle is the brand-new company that has the scented candle industry buzzing, and for good reason. With 36 outstanding fragrances presented in a clean, crisp all-white look, our candles fit beautifully with any décor.

There's even more reason to love the line! Dye-free Kringle Candles emit a luminous glow that provides a fantastic soft light, unlike typical dark-colored candles.

Kringle Candle may be new, but we have plenty of solid history behind us. Kringle was established in 2009 by Mike Kittredge III. His father founded the Yankee Candle Company in 1969. Working together, the pair has created a candle line based on superior products, fantastic customer service and most importantly – speedy, profitable turn for the gift shop owner. And isn't that most important?
